### **DETAILED ACTION**

Applicant's amendment of 8-25-04 has overcome the previous Quayle's Action.

However, the following 112 issues are noted. Thus, a new ground of rejection is presented

Claims 23-25 are cancelled.

Claims 1-22 are pending.

#### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6, and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claims 1-6 recite "a method of binding a kappa opioid receptor...", which refers to a mode of action, and not treatment of a particular disease. Therefore, it is unclear if the claims are intended as a method of treatment, or diagnosis, or bioassay.
4. Claim 22 lacks antecedent basis because it recites compound #17 which does not fall within the genus recited in claim 7. Note formula #17 is not a substituted piperidinyl. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1624

***Possibly Allowable Subject Matter***

Claims 7-21 appear to be free of prior art.
